

COVID-19 PREVENTIVE MEASURES FOR EXHIBITORS

- Signing a responsible declaration for accepting the participation rules and your commitment to comply them, in addition to your firm intention to collaborate with the Organization.
- Designating and informing the Organization of a person responsible for the application of the COVID-19 prevention measures set out here in addition to the one that they implement privately.
- In all stands it will be mandatory to have gel or hydroalcoholic solution for own use and available to customers.
- Exhibitors must guarantee the necessary hygiene measures in case of return of items by their customers.
- The access shall be done through the specified doors.
- A FFP2 mask without exhaling valve must be worn. In the case of the exemption accreditation of its use due to reasons included in the legal regulations, and in case of doubt, it will be under the criteria of the medical service of the event, its acceptance.
- The safe distance will be kept through the specified signs.
- At the entrance, exhibitors' temperature will be checked. It will be used a non-contact thermometer. The refusal, with no exception, will lead to the denial of the access.
- In the case of the temperature will be higher to the authorized one (37,5°C), the exhibitor will be taken to the medical service, where they will repeat the mechanism.
- In case of giving a second positive test, you will not be able to access the venue. The exhibiting company will be informed of the prohibition of entry of its worker in writing without indicating any other cause than "not suitable to access the facilities" entrusting him/her to take the appropriate measures due to risk of contagion by exposure in a generic way. The measures to be taken in the event of symptoms during work will be activated.
- This attention will be carried out in a space set up for it and in a reserved manner. The person affected will be informed of the recommended measures in cases of symptoms compatible with COVID-19.
- Hands will be washed using hydroalcoholic gel provided by the Organization.
- Once the access controls have been passed, you will directly go to your stand.

- All the stands, in their area of direct attention to the public (organizational and exhibitors) and when interpersonal distance cannot be guaranteed, will have preventive measures for physical protection. The distance between the exhibitor and the visitor in all other cases will be 1.5m, indicated by the appropriate signals.
- As long as it is not authorized by the competent authority, the holding of cocktails or similar events associated with the fair activity is not allowed. The restoration activity in the stands of the exhibitors is prohibited unless they have specific authorization from the organization and in the cases that the current legislation marks.
- Reception and dispatch of materials. External personnel will remain in the cabin of the vehicle, without leaving it, unless it is strictly necessary. If you need to get out of the vehicle, you should use a protective mask, limiting the areas that you can access as much as possible.
- Avoiding any physical contact, even shaking hands, kisses, hugs, etc.
- Avoiding staying for a long time in a lesser distance than 1,5 meters from the others.
- Avoiding, as much as possible, meetings and group activities.
- Try not to use equipment or devices from other colleagues, and if this is not possible you shall increase hygiene measures (own washing and washing of the element before and after use).
- The preferred payment method is via credit card or any other way without physical contact. The credit card terminal will be cleaned and disinfected after every use, as well as the TPV if this was used.
- The capacity will be limited to the indicated by the legislation in force at the time of the event (currently 75%). All the areas will be signposted indicating their allowed capacity.
- Catering at events. Since this service is provided by third party companies, they will be required to comply and accredit the measures provided by the current legislation at the time of the event; Among them, the arrangement of the tables, being indoors for a maximum of 4 people and themselves are responsible for ensuring that these measures are met.
- The exit will be done through the specified doors.
- Crowds will be avoided and an interpersonal safety distance will be maintained at all times.

Do not come to the event if:

- You have symptoms such as cough, fever, shortness of breath, etc.
- Close contact has been maintained with people who have been in the same place as a positive case while presenting symptoms and at fewer than 1.5 meters for a time of at least 15 minutes.
- Space has been shared without interpersonal distance with a positive Covid-19 person.

VALIDITY AND ACCEPTANCE OF THE MEASURES

- These measures are subject to the evolution of the health situation to which it's referred and may be modified at any time to adapt to the evolution of it.
- Any change will be immediately notified by the appropriate means (publications in web, social networks, etc.).
- Security personal will oversee the compliance of these rules.
- Detecting serious or repetitive breaches will be the reason for the stand closure and sealing by the Organization.
